The vote taken in the House of Representatives, yesterday, on Mr. Morrill's bill to donate to take a look through the large variety of paper lands to the several States, for the benefit of Agricultural and the Mechanic Arts, indicates the success of the measure in that branch of Congress. THE FLOOD IN THE MISSISSIPPL.—Our exchanges from St. Louis are full of details of the great effort to close them has proved fruitless. Should the river continue to rise, for a few days longer, it is feared that the damage will be incalculable MOR LAW IN PROSIA .- On Sunday and Monday

Evenings, the Chicago Journal says, the streets of Pooria were made the scene of lawless violence. A crowd of from three to five hundred men marched in a body to several houses of bad character in the place and "cleaned them out," ---One of those houses was deliberately set on fire and reduced to ashes. Three other houses were completely riddled and locked. The proceedings were anything but creditable to a community that has a municipal and police organization.

KATAL ACCIDEST-MAN KILLED .-- On Saturday Mr. John Tolan, who resides near the depot. He Mr. John Toku, who resides hear the dope. He is said to have felt remarkably good, and would occasionally throw his weight backward, attempting to impede the progress of the car, while he was apparently aiding the others in moving it.— While thus engaged the forward wheel of the car caught his heel, crushed his foot, his leg as far as his knee, and then ran off on to the fleshy part of his third, cutting the flesh to the bone. part of his thigh, cutting the flesh to the bone Ho was convoyed to his home, and physiciaus immediately called. He lingered throughout the day and night, and Sunday morning, though the physicians had decided the provious day that amputation would avail nothing, his leg was taken off. He expired immediately after the operation had been performed. The deceased was a untivo of Ireland, and leaves a wife and family to mourn his untimely donth .-- Waupun

An ARGUMENT FOR A DOU LLAW.—We learn from Hou. W. H. Prontice, member from Sheboygan Co., that Chas. Coll'in, (one of his neighbors,) had his entire flock of full blooded French Merine sheep killed, one night last wack, by a couple of vagabond dogs belonging to men of whom not a dollar could be collected, although the shoop lost were valued at \$200. This is a strong argument in favor of the deg law now pending before the Legislature. Sheep raising is becoming a large business in

this State, and if law can do anything to protect them against the ravages of dogs, it should be done.—Mailson Journal.

ANOTHER HEAD OFF.—The agony of one more poor Douglas man is over. Mr. Henry S. Fitch was yesterday confirmed by the Sonate as U. S. THE " NEWS" AND THE MAYOR .- The News refuses to be comforted under the sharp rebuke administered to it by Mayor PRENTIES for its persistent mis-representations and partizan calumnies. It retorts in a very angry strain, but with little effect. BY MAGNETIO TELEGRAPH

WASHINGTON, April 22.

House—The House proceeded to the consideration of Mr. Morril's bill donating land to the several States, for the benefit of agriculture and the mechanical arts.

Mr. Cohe west-Congressional.

Mr. Cobb made a speech against the bill which ware 1, yesterday, in choice samples. It the receip's ware 1, yesterday, in choice samples. It the receip's ware 1, yesterday, in choice samples. It the receip's ware passed by years 1,04, mays 151. The bill grants 6,340,600 of land to be appropriated to certainly be lower, but a lively computition, with vary little grain in the market, has caused this advance.—
Fair weather would increase receipts, and reduce prices from 2 to 5. The present quotations cannot, there is liked. The money derived from the sales, is to be invested in U. S. or other stocks, yielding not less than 5 per cent, per annum. The money thus invested to constitute a perpetual fund—the in-terest of which shall be inviolably appropriated

to the andowment, support and maintonance of at least one college where the leading object shall be without excluding other accentific or Consical studies,

The House then went into committee on the bill granting pensions to officers and soldiers of the war with Great Britain in 1812, and those ougaged in the Indian War during that period.

Mr. Savage, who reported the bill from the Committee on Invalid Pensions, made an earnest speech in its favor.

Mr. Fonton officed and advocated an amendative transport of the bill of the pensions of the bill of the

ment to pay peneions from the date of inability.

Mr. Cobb gave notice of an amendment to provide for those engaged in the Florida and Orock Indian War.

Mr. Florence gave notice of an amendment to equalize the Army and Navy and Marine Corps, and to give pensions to persons in the Mexican War and Indian War of 1818. Mr. Montgomery gave notice of an amendment for providing for the soldiers of Gen. Wayne's

triny. Mr. Maynard gave notice of an amendment extending the provisions of the bill to the troops engaged in Jackson's Florida campaign. Mr. Underwood gave notice of an amendment ideluding the Kentucky soldiers under Hopkins.
Mr. Letcher thought it better to refer these natters to ascertain how much all of these penions would cost.

The Committee rose, and the House then ad-

morning's Senate was the presentation by Mr. Seward, of the reply by the American Telegraph Company, in reduction of the allegations conained in the recent memorial of Amos Kendall, and the Morse telegraph interest.

The remonstrance objects to the action of Congress, on, the said memorial for these, among other reasons, that the general law prayed for by the memorialists strikes at all the ordinary business arrangements of such companies as are acting under, and are amendable to state laws, empraces telegraphs, compunications, with forembraces telegraphic communications with for-countries, and by giving one company the fruits of the hazard and labors of another, lead directly to the discouragement of telegraphic endirectly to the discouragement of selegraphic en-terprise. That the parage of said law is asked for by two orly of the ten leading Telegraphic Co.'s of the U.S.,—all the others being satisfied with the managements between the Newfound-land and American Companies as it now exists. That the arrangement complained of, is not exclusive in its nature, insemuch as the menori-alists themselves have been frequently invited to

alists themselves have been frequently invited to share in it, and that remonstrants finally went on with the hazardous entorprise alone, building the New Foundland line at their own cost, and that it would be unjust now to compel them to chare their business with these memorialists, who not only refused to share in the risks of the enterprise when invited, but did all in their ower against it.

ing worked at loss, and the Atlantic Co., has invosted millions in their enterprise, which is still
considered doubtful, and understanding that it is

the next attempt to lay the cable. That a usoful
enterprise prosecuted under such adverse circumstances is as worthy of encouragement as
any mentioned for which a patent is granted.
That if a law compelling Telegraphic Lines That if a law compelling Telegraphic Lines crossing the border of U. S. to transfer its busi-

ness to whoever might claim it is proper, a simi-lar law will be proper in the several States and would be equally proper as applied to Rail Road, teamship and Transportation Companies. Mr. Seward introduced a bill which was read twice and referred to the Military Committee to ecure the prompt construction of a Telegraph ine across the continent, from San Francisco to line across the continent, from San Francisco to St. Louis. The bill provides that the line shall be commenced from the eastern section within sixty days, and from the Pacific within ninety days after the passage of the act. The line is intended to supply facilities to the government for transportation of the mails, and the public for communication purposes. The bill seks 100 feet right of way with a government contract in sid of the project.

the American and New Foundand Co. 3, have entered into an agreement for the mutual interchange of their messages, in order to faciliate the business of their respective lines.

That these memorialists who are so solicitous about combinations are the owners of a patent which has been in existence for 18 years—in the lass 12 of which they have streamonaly endeav-ored by combinations to crush out all competi-tion in the business of telegraphing, and only in tion in the business of telegraphing, and only in July last sought to effect an arrangement with ten other companies—the parties to which arrangement were to bind themselves never to connect with any other line, and also to refuse collection, as far as practicable, with any existing lines that decline to join said combination. That one of the companies controlled by them did actually, at one time, enter into a conditional agreement with the New Foundland Co. before the line of the latter were built, for the purpose of monopolising all the foreign telegraph business, which agreement, on its design becoming apparent, was subsequently abrogated by the

ng apparent, was subsequently abrogated by the New Foundland Co.

In conclusion, the remonstrants say, that the only aid the Atlantic Co. are to receive from Government is the business to the amount of \$70,000 per annum, which is guarantied to them from the time of the completion of their line up to the period when its stock pays six per cent, when the amount is to be reduced to \$50,000.

The document was referred to the Judiciary ommittee, and ordered to be printed. Mr. Mason's resolution respecting Paragua was taxon up and discussed till the expiration of the morning hour.

The Deficiency Bill was then taken up and discussed for hours and various amendments

made to it.

Fouling an amendment offered by Mr. Fessenden, allowing the deficiency of the past and present years, but disallowing advances for the coming year, the Senate adjourned. nado to it.

WRIDAY MORNING. APRIL 23.

IMPORTED Heal Hoad Averagement.

The Hamilton, (C. W.) Times of Saturday says:

"We have learned that, within the last tow days, arrangement have been perfected between the Detroit and Milwaukee and Port Huron (opposite Sarnia on the St. Clair river) to Owesse on the Detroit and Milwaukee Rallway, and forming, with the Sarnia branch of the Great Western Railway of Canada, an air line between the Mississippi and Bostou, has now become an integral sizely in the profession and was a young man of control of the Detroit and Milwaukee line, and the saturday says is sispipi and Bostou, has now become an integral sizelent; in short, he was in an advantageous position to lead him to a career of hour with reprofession to lead him to a career of hour whole now placed permanently under the control of the Great Western Company, thereby entering the first company, thereby entering a contamination; they corrupt the hourt and bring reproach. The marriage was whole now placed permanently under the control of the Great Western Company, thereby onsuring the most efficient management of the business of the road, and the greatest possible bought to the Province."

This arrangement is calculated to expedite the construction of the Port Huron and Owesso Railroad, and therefore specially interests our citizons—since the completion of that link finishes the Air Line from Boston to the Mississippi by way of Milwaukoe. The large stake which the Canadian Companies now have in the Detroit & Milwaukee and the Port Huron and Owesse roads, must operate most favorably upon the luterestelof this city, as well as of all the Rail Roads contaring here; since it will be the obvious policy of the Canadian Directors and the English Stock and Bondholders to concentrate all the business on this Alr Line.

When it is remembered that this Line must necessarily become the great through route for passengers, emigrants and merchandise, from Boston, Portland, Quebec, Montreal, &c., -each of these ports being the terminus of a line of Ocoan steamers-and will get, besides, a full share, at least, of the business from New York (as witness the present amount of trade and travel over the Great Western Railway through canda,) no mar car fail so see that it is destined to become one of the busiest and most profitable lines of Railway in the world. The advantages which Milwaukee is destined to derive from the opening of this Grand Ayenue between the Atlantic and Pacific, are incalculable. The Detroit and Milwaukee R. R. will be completed and in his rage toward some person whom he had in his rade of the true. Nothing can exceed the toward when he had in his rage toward some person whom he had in his rade of the had here farmed that first the man souty in the tenth days are sufficient to the time the days are sufficient to the time the d ished early in 1859. When both are done and our Steam Forry in full operation, our city will fairly hum with business, and our Wisconsin Rail Roads be constantly crowded with passon gers and freights.

Illinoluin an Upronr. The "Democracy" of our sister State, Illinois

are enjoying, just now, the luxury of a "free fight." The apple of discord which got them by the ears, is the Locompton Swindle. The Doug lus mon denounce, and the Buchanlers uphold the bill, as the test of Democratic orthodoxy. The contending factions met in State Convention, at Springfield, on Wednesday last. The attendance of Delegates was large, the Interest in tonse, and the struggle a herce one. It was, however, of very short duration, and resulted in the signal triumph of "the Little Glant," and the utter and mortifying overthrow of the Administration. The Buchaniers, finding themselves deleated, withdrow from the regular Convention, and organized a new one. But they could only muster delegates from about one-fourth of the Countles in the State, and made so slim a show that they adjourned, without making any nomi-

natione, to the 8th of Jane.

The Douglas mot, on the contrary, were numberous, confident and exultant. They mustered 20 delogates from 07 counties, and after organizing, procuended to nominate candidates for State Treasurer and Superintendent of Public Institutes and the section happened by a fail in part of the Illinois Delegation in Congress, were hearthly delopted. Senator Doualas himself was specially complimented, and enthusiastically cheered. A very cold shoulder was turned to the Administration. Indeed, the Buchann party may be tration. Indeed, the Buchann party may be set down as practically deformed to the Administration of the Northwestern States. The spirit of Liberty is too strong and fresh among the people of this section of the Republic, to tolerate, for a moment, such george, many long to Predom, Justice and Popular Rights, as is involved in the Lecompton Swindle. Disguise the question bow we may, wrap it up in mystory, concent it from ourselvee, the fact is certain that the Railroads of the United States have lest all credit in Europe. Prospectuses the most inviting, Bonds of the fairest specimens of the engraver's art, do not present sufficient attractions to overcome the result of past experience. A burnt child dreads the fire. They want the magic word "guarrantees." It is found that if the body politic call it state, or Empire, or the magic word "guarrantees." It is found that if the body politic cull it State, or Empire, or nation, has no direct interest in the undertaking, it will be sacrificed, or at least the interests of be share-holders will not be cared for, rather he revurse.

No sooner does a Railroad in the States draw a prize in the lettery of chances, and give that very rare thing a good dividend, and show the probability of a succession of them, than the probability of a succession of them, than the legislature willingly accords a new line to any long who will ask for it, which will cut down the large profits of the fortunate line, doubtless on the ground of doing the greatest good to the the ground of doing the greatest good to the greatest number. A very different course would the Legislature talt; if it was bound to pay a minimum dividend on the whole of the capital expended on the Ruilway of say 6 per cent. per annum, in other words, if the projectors of Railways in the Statee intend to bring forward any new mortgages for the purpose of completing the Railway, it is now a matter of simple necessity that they should obtain the State Guargather, and insert it in the Bond together with rantes, and insert it in the Bond together with the usual clause pledging the whole of the Rail-way then made and to be made, as well as the

MR. EDWARD EVERETY IN THE SOUTH.

Myom the Richmond South.

Throughout lite, Mr. Edward Everett has been a consistent Abolitionist. When he was appointed Minister to the Court of St. James, the Committee on Foreign Affairs in the Senate, of which the wise and conservative William R. King was Chairman, reported against his confirmation on the ground of his extreme antagonism to the institutions of the South. At that time a lotter was produced wherein Mr. Edward Everett

oil Edward Everett's last term in the United States Scante.

We come down to a still later period. The great struggle of 1856 is in the crisis of doubtful progress. Nobody can foresee the issue.—Everybody understands that the triumph of Black Republicanism will involve the overthrow of the Union. In such an hour and such a contest, where was Mr. Edward Everett—the now so illustrious patriot? Did he come forward with conspicuous zeal to avert the calamity of disunion? Did he emulate the example of the gallant Cheate; or did he skulk ingloriously from the cause of the country? We leave his friends

But thir. Edward Everett does not always shrink from an avowal of his soutiments. When I Summer's scurrility provoked morited chastise-mont from a galiant son of the South, Mr. Edward Everett exhausted the resources of invoctive upon Brooks, and of eulogy upon the base calumniator. Going beyond the necessities of personal feeling, he indosed the political sentiments of Summer's speech.

These things Edward Everett did, and yet he is honored in the South by many most elaborate demonstrations of homage. He is imported to Richmond to teach Virginia how to admire Washington! He goes to Charleston and is addressed in this strain of adulation; "Oration for the Union, and friend of mankind."

Some 80 feet progress had been made in the West side of the Tunnel, and work was being extended five feet avery day. The approaches were about complete on the East side, when the progress of the Tunnel would be ten feet a day. At this reckening, five mouths will send a streak of day light through the Bridge.—La Orosse Democrat.

DR. BANFORD'S INVIGORATOR came to us recommended to us a cure for Liver Compitality, and all diseases arising from a diseased Liver. The festimontals of so many of our Physiolansia its favor induced us tory it, and now convictionis certain that it is one of the greatest bleadings ever given to Dyspeptios, for it made. a complete care before the direct bottle was taken, and now we can est anything a callele without trouble, while offers nothing but the lightest faced would digest, and often that gave pain. Now what we want to casy to all our readers is, if Liener Compitation or Dyspepcia trouble you, do not fall to try this the greatest ramedy in the world.—State Tace:

THE DAILY SENTINEL.

grom the Peorla Union of the 90th. THE LA CROSTE MURDER AND ROBBERY. The Last of Four Villains Arrested.

We were called upon yesterday by J. R. Coudry, Esq. United States Marshal for the State of Wiscousin, who related to us the following facts relative to a murder committed in the city of La Ucosse, in that State, in July last. In the month of July last, an unknown boy landed in the city of La Crosse, on a morning about the middle of the month, from one of the line boats, running from Prairle du Chien to St. Paul. Proceeding from the boat he wont to a livery stable and from Frante du Chien to St. Faul. Proceeding from the boat he wont to a livery stable and hired a horse, stating it to be his object to go back and see the interior of the country. He went, and returned between sun down and dusk, and it was the back and see the latest and to the second see the second secon back and see the interior of the country. He went, and returned between sun down and dusk, and in settling for the horse he displayed in the neighborhood of five hundred dollars in money, divided into fitties and hundreds having nothing less than fitties. He gave one of these to be changed to the livery keeper, who procured the change, and giving it to the boy he departed.— A man by the name of William John, one of the four murderers, the last of whom was accested in this city, yesterday morning, was standing in the stable at the time, and seeing this money followed up the boy, and this was the last time the stranger boy was seen, or heard of alive. Some two weeks afterwards, some men hading sain, listed up a body, which proved to be that of the unfortunate youth. A lateral wound was found upon his face, which had evidently been given with a heavy steel. The bodygwas also stabbed four times in the region of the heart. He was likewise without a particle of clothing. About this time the jewelry store of A. Patze, in La Crosse, was robbed of eight thousand dollars worth or jewelry, and some eight hundred dollars in money. At this point it is proper to state that there were four Germans realtime at Is Crosse named re-

jowelry, and some eight hundred dellars in monoy. At this point it is proper to state that there were four Germans residing at La Crosso named respectively, L. Kuisner, Albert Marlow, or Mallow, Williams John and Charles Relsaer.

The latter was known in this city by the name of Charles Horse, and was arrested yesterday morning. These Germans were engaged in the butcher business, and were known to steal their ntock all about the vicinity, until one night Marlow or Mallow had a difficulty with another hundler named French, and became, so exampara low or Mallow had a difficulty with another butcher manned French, and became so examplers ted that he went that same night and broke the lock of French's barn, killed his horse and burned down the barn. This last act so enraged the people that the elfender was arrested and crea, and was sword clear by his partners and accomplices, after which he was arrested and bound over for stealing cattle. Forfeiting the bail he abscended, and his coadjutors in urine disappeared also. Marlow left his wife and child in the coadjutors in the coadj disappeared also. Marlow lett his who said cand in La Crosse. They had been gone some three months when Marlow's wife, becoming reduced to absolute want, sold some jewelry in liquidation of her board. This jewelry, upon tracing it, was found to be a portion of the goods stolen from the store of Paizo.

A search warrant was immediately taken out, the Marlow who was living.

A search warrant was immediately taken out, and the house of Mrs. Marlow, who was living unlawfully with the man Koisnor, was searched, and a thousand dollars worth of jewelry was found in a trank nuder the bed, together with the identical clothes of the murdered boy, identified by the stabs through them corresponding with the wounds upon his body. Mrs. Marlow and Keisner were arrested and confined in jail. Here was a clue to the murder, and well founded supposition pointed to the lact that Marlow had Horo was a cus to the merce, and wontended supposition pointed to the fact that Marlow had then to and was living at Council Bluffs. Mr. Marshall Coudry volunteering to pursue all four of the implicated, produced the proper papers from Gov. Randall, of Wisconsin, and Gov. Lowe, of Iowa, and started immediately for Council Place. Cossing the river at Dubuque, and finding the

Cossing the river at Dubuque, and inding the stage had left, he promptly engaged a livery team and evertook the stage. Arriving at Codar Rapids, he found the bridge carried away by the extraordinary rise of the river, and the kee floating so as to render any passage by teams or farry impossible. With the courage of a hero, he aggreed a best and the necessary assistance. farry impossible. With the courage of a here, he eagaged a beat and the necessary assistance, crossed the river and proceeded on his way against antavorable elements, travelling night and day, until he arrived at Council Bluiz. There he get track of Mallow, who, it seems, had assumed the names of Wm. Tenle and Wm. Deale, and was eagaged there as a batcher. Suspicion in that place had aiready fastened upon him as engaged in similar orimes of which he picton to that place and arready matched upon him as engaged in similar crimes of which he had been suspected as those in La Crosso. By the prudent and timely assistance of officers, Mallow was arrested, and Mr. Coudry success-Mannow was arrested, and arrived the fully waited upon the dangerous culprit until he was safely ledged in the jail at La Grosse.

After securing Mallow, Marshall Goudry pro-

After securing Matter, Marrian County pro-cured a second requisition upon Gov. Denver of Kansas, from Gov. Randall for the body of Wil-liam John. Promptly proceeding to Kansas and searching about Leavenworth City and vivinity, appending sevon days fruitlessly, he finally suc-ceeded in capturing him in the State of Missou-ri, about six miles from Leavenworth City, back in the wearth. course adopted by Marshal Coudry was a

The course anopout by margue touch, was as successful as it was asgacious. Proceeding to the saw mill where he had reason to suppose Matlow was employed, he struck a burgain with his employer for some ten or lifteen thousand test of humber, with the idea of building a house, executed contacting the ground, and looking has captoy to the tho idea of building a house, meantine surveying the ground, and looking about for his prisoner. After partially bargaining for the lumber, and stating that he would see him again, Mr. Coudry casually observed that the lumber denier, he believed, had an old nequaintance in his employ, and he proposed to see him. The man being asked, he was teld that the man was cutting logs nearly a quarter of a mile from the mill. Remarking that he would probably find thus to call upon him the next day Mr. Coudry immediately left upon his return to heavenworth, where he precured sufficient assistance to arrest his man, and going straight back, found him, and securely manualed him.

sistance to arrest his man, and going straight back, found him, and recursly manucled him. —
Upon going to John's house, in the back in the woods, he found there secreted, some four thou sand dollars worth of Patzo's jewolry.

On the 16th day of Alarch the marshal with his prisoner, shackled and handcuffed, the irona, weighing twenty two pounds, emburked upon the stenner Sienz City for St. Louis. Between Mismi and DuWitt, on the Missouri River, he jumped overboard, shackles and all, and was drowned. jul, from whence he will be taken to he Crosse, Wisconsin, where we may soon expect to learn of his suffering the pounty of his complicity in this concinous crime by submitting his neck to the well deserved batter.

The circumstances of his acrest are as follows: Marsh I Condrey arrived in this city in the early morning train from Dixon, and soon finding the whorembouts of his prisoner, with the assistance of Capt. Crouse of the Peorin police, arrested him at his ment shop on Jetherson street. When approached, he decided all knowledge of the bloody marder, not even "backing down" when some two thousand dollars worth of Patze's jewelry was found in his trunk.

two thousand dollars worth of rate's Jewel's was tound in his trunk.

It is necessary to state, as illustrative of the prisoner's unthoudents that he was convicted in Chicago in June, 1855, of grand larcenty, and sentenced to Alica for two years. Having served out his time he was released, and went to La Crosse, where he had not been six weeks before he participated in the marder of this boy.

AGENTS WANTED.

ITHE GREAT SHFT SALE of Gold Pendelis, by A. H. Wilford & Go., Washington Gity, D. C., offers an excellent chance to Agents to make a few dollars with little or no expense. We tre manufacturing and selling beautiful solid Gold Pendis for \$5 each, (the actual retail price.) and glving each nurchaser a git, worth from two dollars up to two hundred dollars. Each purchaser of a Pendi is sure of a \$2 gift at least, or it may be worth \$2, \$10, \$15, \$20, \$50, \$50, \$50, \$60, \$75, \$100, or \$300. The prices are distributed to purchasers by a simple visuo of Grawing, and as soon as the name of a purchaser is received with the \$5, bis Penedi and Gift are put in a small box, in a sale manner, and sent to the owner by mail, post paid. Our plan gives perfect astisfaction, as each purchaser can sellor trade his Penedi tor all it conthim, and retain the gift gradia. We want a good agent in every part of the country, to solicit purchasers, and a good agent, to be accessful, should first have a Penedi and Price to exhibit. We allow an acception description of the solicit purchasers, and a good agent, to be accessful, should first have a Penedi and Price to exhibit. We allow an acception description of the \$5,1 and the Sirth purson becoming a purchaser as any post office, will receive the sponcy for that neighborhood.

A. NEW AND LITE PARTAINE IDEA.

We propose to let a person know what git he will traw, before requiring any money to be sent. Any ver-AGENTS WANTED. son desiving one of our massive Gold Percells, can first send as their name and address, and we will make their drawing and inform them by return mail what prine they drew. They can have the privilege, of sending for it if they choose. We cannot, however, give this privilege but once to thry percell, and we make this offer to establish Agencies, and introduce our Pencils in a neighborthood. After a p raon becomes a purchaser and accept she agency, we require all persons in that locality to end their So in advance through him. Purch ners may ely upon it that we will promptly forward their Pencil and Prize, whatever it may be, by return mail, on receipt of the \$5.
